VISION

Our vision is to prepare the students of medicine to their future clinical life by providing them with the essential basic knowledge from the disciplines included in this module.

MISSION

- a) To provide students of medicine with integrated disciplines of basic medical sciences to provide them with knowledge about the endocrine system.
- b) The above-mentioned mission will be achieved through integrated lectures, practical labs, seminars and tutorials.
- c) Enable the students, through the integrated teaching, to comprehend the relation between structure, function, and abnormal structure of the endocrine system.
- d) In addition, at the end of this module, student shall be able to integrate the causes of disease to correlate clinical manifestations of diseases in the endocrine system. The student shall understand diseases of national importance in relation to the clinical, therapeutic and preventive aspects.
- e) In addition students are given the opportunity to expand their scope of knowledge through SDL/CAL.

List of lecturers:

NO	Lecturer	Discipline	Tel NO
Module Coordinator			
1	Dr. Mohanad Monther	Pathology	
1.			
1.	A/P Mohammed Obeid	Anatomy	
2.	A/P Insaf Jasim Al Hasson	Anatomy (Histology)	
3.	A/P Sabah Mehdi	Physiology	
4.	Lec.Mohannad Monther	Pathology (Histopathology)	
5.	A/P Yaser Abbas	Biochemistry	
6.	A/P Ekhlas Khalid	Biochemistry	
7.	A/P Raghad E.Naji	Biochemistry	
8.	A/P Saad Badai	Pharmacology	

INTRODUCTION

This module will extend along 5 weeks in year three.

The module focuses on the normal anatomy and function of endocrine system in a way that allow the students for better understanding of endocrine system disorders.

Beside lectures and practical sessions, students are trained to prepare seminar presentations and given the opportunity to interact with lecturers in tutorials/SDL/CAL.

The inclusion of a few clinical scenarios should give a taste of understanding the relevance of basic sciences to the clinical part of the studies

Student's progress will be monitored through progress tests, seminars and tutorials. The students will also be required to give their feedback on the module through an evaluation form.

The total assessment in the form of end year examination will be done at the end of the year.
