

**Year I Semester I MBChB Program
Preparatory Module I
KMC-UOB 2016/2017**

*Module Coordinator: Dr. Ihsan Ali
Co coordinator: Dr. Ekhlās Jawad*

Table of Contents

	Topics	Pages
1.	Vision and Mission	1
2.	List of Lecturers	2
3.	Introduction	3
4.	Learning outcome	4
5.	List of teaching	6
6.	Teaching learning methods	7
7.	Module content	11
8.	Assessment	18
9.	Teaching schedule Theory & Practical	Appendix 1
10.	Reading list	19

Preparatory Module I

Vision:

This module forms a fundamental component of the Medical Physics and the principles needed to understand how the body works, and the main principles of using the Computer OS. It provides an introduction to all major medical physics subjects and techniques commonly encountered in physiology and medicine, with the main skills in Microsoft programs.

Mission:

The overall aim of the module that the student will be a familiar with the further pursuit of knowledge of theoretical and practical aspects of medical Physics and computer skills which are dealt with in greater detail in the following years of the Medicine degree program
